

PROJECT : SUPPLY AND DELIVERY OF CUSTOMIZED BRANDED WRIST WATCHES FOR THE SSS LOYALTY TOKENS (FOR 30 YEARS IN SERVICE AND UP) (RE-ADVERTISEMENT)

A. QUERIES/CLARIFICATIONS RAISED DURING THE PRE-BID CONFERENCE:

| | Query/Clarifications | TWG/BAC Reply |
|---|---|---|
| 1 | For the Submission of Prototypes, is there a leeway or advance notice? It is noted that the prototypes of the wrist watches is within five (5) calendar days from receipt of Notice to proceed for inspection. The prototypes will come from Switzerland and we have to request one (1) month ahead of time. Aside from this, the customization for the said wrist watches is not done locally. Is there a point person that we can coordinate with so that we can request ahead of time? | The TWG recommends not to revise the bidding documents to extend the period of submission of prototypes as it will impact the strict timeline of the project, considering this is already a readvertisement. The TWG also recommends the Bids and Awards Committee (BAC) Secretariat Department as the point of contact for the bidders/suppliers during the entire procurement period. |
